

## Model Variations

### FUE-M/T 13A

Electronic frequency and voltage converter with variable frequency adjustment for operation at 400 V three-phase current connections.

**Item Number**  
5000108001

### FUE-M/S 75A 4 CEE-32A

Electronic frequency and voltage converter with variable frequency adjustment for operation at 400 V three-phase current connections.

**Item Number**  
5000107999

### FUE-M/S 75A 4CEE-32A

Electronic frequency and voltage converter for operation at 400 V three-phase current connections.

**Item Number**  
5000610409

### FUE M/S 75A 6CEE-32A

Electronic frequency and voltage converter with variable frequency adjustment for operation at 400 V three-phase current connections.

**Item Number**  
5000610194

### FUE-M/S 85A 2CEE-32A

Electronic frequency and voltage converter with variable frequency adjustment for operation at 400 V three-phase current connections.

**Item Number**  
5000109040

### FUE-M/S 85A 4CEE-32A

Electronic frequency and voltage converter with variable frequency adjustment for operation at 400 V three-phase current connections.

**Item Number**  
5000108479
